

Social Media / TikTok Scripts

Take a trending audio or format and adapt it to your niche with original script.

Difficulty: Intermediate → Advanced

Model: GPT-4 / Claude / Gemini

Use Case: Trend Jacking, Viral Formats, Niche Adaptation

Updated: May 2026

Why This Prompt Exists

Most trend adaptation fails because creators copy the trend without adapting it to their niche.

You get:

- trends that don't fit your brand (awkward)
- scripts that feel forced (low engagement)
- no original angle (just copying)
- missed opportunities to ride viral waves
- trends that die before you post

But trend adaptation is not copying.

It is remixing for your audience.

- Understand the trend format (what makes it work?)
- Identify your niche's equivalent
- Keep the structure, change the content
- Add your unique perspective or humor

Without adaptation, you look like a copycat.

This framework forces AI to adapt trends to your niche.

The Prompt

Assume the role of a TikTok trend strategist who adapts viral formats to specific niches.

Your task is to create a trend adaptation script.

Generate:

1. TREND ANALYSIS

- What makes this trend work?
- Format, structure, hook

2. NICHE ADAPTATION

- How to apply the format to your niche
- What changes, what stays

3. SCRIPT (30-60 seconds)

- Hook (adapted to your niche)
- Body (following trend structure)
- CTA (adapted to your goal)

4. VISUAL & AUDIO NOTES

- What to show on screen
- Trending audio recommendation

5. TIMING NOTES

- When to post (trend lifespan)

6. HASHTAGS (trend + niche)

INPUTS:

Trend Description (audio or format):

[DESCRIBE THE TREND]

Your Niche:

[INSERT]

Your Topic:

[WHAT ARE YOU TEACHING OR SHARING?]

Target Audience:

[WHO ARE THEY?]

Your Brand Voice:

[EDUCATIONAL / FUNNY / RELATABLE / BOLD]

RULES:

- Don't copy – adapt and add your unique angle
- Keep the trend's structure but change content
- Add your niche's specific details
- Post while trend is still growing (not at peak)
- Credit original trend if needed
- Make it feel native to your brand

How To Use It

- Don't copy – adapt and add your unique angle to the trend.

- Keep the trend's structure but change the content to fit your niche.
- Add your niche's specific details — inside jokes, specific pain points.
- Post while the trend is still growing, not at peak.
- Credit the original trend if needed (tag the creator).
- Make it feel native to your brand — don't force it.

Example Input

Trend Description: "POV: You're explaining your job to your grandparents" — person lists their job duties in simple terms, ending with "...so basically I'm a [funny oversimplification]."

Your Niche: Freelance copywriting

Your Topic: What a freelance copywriter actually does

Target Audience: Aspiring copywriters and freelancers

Your Brand Voice: FUNNY AND RELATABLE

Why It Works

Most trend adaptation is just copying.

This framework improves outcomes by forcing:

- trend analysis (understanding)
- niche adaptation (relevance)
- original script (not copy-paste)
- visual/audio notes (execution)
- timing strategy (peak reach)

Great trend adaptation doesn't copy — it remixes for your audience while keeping what works.
